C. FRANCIS BARNARD, M.D

SURGEON DENTIST.

DR. BARNARD HAS had for SEVERAL months the "Perkins Hyatt" or "Celluloid Base," the newest and latest material adapted to the mounting of whole sets of teeth; he is also using "Whalebone Rubber," which is rapidly supplanting, for single dentures or partial sets, the best vulcanites of the past 25 years.

We cheerfully add Dr. B's Card to our columns, convinced that his good taste and judgment, united to natural skill and ingenuity, aided by an extensive practice of upwards of thirty years, render his services more valuable and reliable than those of any other dentist on the Sound, Coast or Island. What is Wrong?

Our morning contemporary informs the public generally that more than once or twice of late complaints have reached it concerning the manner of treating tenders for public works sent in to the Land Office, and in the fulness of its magnanimous soul says: "We are at all times disposed to repel suspicions of this class and to make a great deal of allowance for the disappointed feelings of unsuccessful competitors." Such a declaration of disinterested generosity on the part of our factious neighbor would no doubt be duly appreciated by the Chief of the Lands and Works Department could he bring himself to believe that it contained even the smallest grain of sincerity. But that it is an expression of purely hypocritical cant, is made apparent by the declaration that "facts have recently come to our knowledge calculated to arouse the most painful suspicion." Now, if our contemporary is in possession of such "facts" as it refers to, why does it not make them known? What is the nature of them? Who that know how greedily it grasps at anything that it can torture into an accusation against the Government, will believe for a moment that if it had anything to tell that would injure the Government it would lay its weary head to rest until the necessary steps had been taken to spread it broadcast over the country? It says it has got hold of a "painful suspicion," and like the fellow who had the misfortune to fall heir to an elephant, it does not exactly know what to do with it. It says, "We are informed that the Chief Commissioner has, in more instances than one, refused to give unsuccessful competitors any information as to the amounts of the different tenders, an act in itself calculated to breed distrust." We are inclined to believe that some wag has been trying to hoax our contemporary. The Chief Commissioner, we would venture to affirm, has never refused to impart information to any one on any subject connected with his department that it was proper to ask for or consistent with his duty to give. When tenders are invited for public works, all those recieved are opened at the same time, and immediately entered in a book provided for that purpose, and if awarded have invariably been given to the lowest bidder, if otherwise satisfactory. An estimate of the probable cost of the work is always first carefully made, and every precaution taken to prevent any contractor obtaining advantages which are not conceded to all alike. There is no secresy whatever practised with regard to this matter, nor favoritism shown, but every thing is conducted fairly and impartially, and in such a manner as to challenge "the most rigid investigation." With these assurances we trust our contemporary will not allow any "painful suspicions" to ruffle its equanimity, but will "repel" them as emanating from those whose feelings have been disturbed by unsuccessful competition.

VICTORIA, B. C., 30th September 1873.

I, William Curtis Ward, do hereby declare that to the best of my knowledge and belief the foregoing statement is a true and faithful account of the average amount of the Liabilities and Assets within this Province of this Bank during the period specified, and that the same was made up from the Weekly Statements thereof, kept in pursuance of the Provisions of the "Banking Act 1864."

WM. C. WARD.

Declared before me at Victoria, B. C. this 3rd day of October, 1873.

William Andean invites all,
About passing his store
To give him a call;
He's sure he can please
In whatever he sells
From articles of verts,
To Sheep and Cow Bells.
He has old curiosities
And modern things too,
Quite a number of varieties
To him credit is due
For the pains he has taken
In making a collection.
You should go there at once
And make a selection.
I should advise all my friends
Who want anything new,
To go to William Andean
Who sells second-hand too.
His profits are small,
But he takes in the cash
While others are sleeping
Or Breaking their Fast.
If an article you find
And don't like when bought,
Why, take it him back.
He's not a bad sort
He will return all monies,
You pay in advance;
His Store of Varieties
You can find at a glance
Opposite the St. Nicholas
He is to be found,
You'll get there for a Shilling
What is well worth a Pound. se29

Cruise of H. M. S. Boxer.

Having embarked Rear-Admiral Cochrane, C. B., Commander-in-Chief, and staff, left Esquimalt on Wednesday morning, September 17th; coaled in Departure Bay that day and anchored in Port Harvey, Cracroft Island, the following afternoon; found geese and ducks in great numbers, several of which were shot by the Admiral and officers. Leaving Port Harvey on 19th September, steamed up to the head of Knight's Inlet. Found the Indians who inhabit this place very peaceable and quiet; the numerous tribes who were assembled here on previous visit had all gone to their homes. Left Taiwatti on 20th Sept. and anchored at Fort Rupert; left there next morning; Bella Bella same night; Holmes Bay, Princess Royal Island, on 22nd September; Metlahkatlah on 23d, leaving again next day; Fort Simpson same evening, leaving that place next morning, the 25th; arrived same night at Hastings Coal Harbor, Skiddegate Inlet. The coal mine was visited and, with the exception of a large bank of earth fallen across the line which was cleared away by the Boxers to enable a truck to be got down with a specimen of the coal, the tramway was in good working order. Mr. Ireland had arrived here from prospecting in the neghborhood of Gold Harbor, with several bags of gold quartz which he was about to send to Barrard Inlet. Leaving here on 27th September, called off the Skiddegate village and anchored next day in Rose Harbor, Moresby Island. A very few Indians were found living here, and after remaining a few hours left for Fort Rupert, which place was reached after encountering very thick fogs on the 29th. The Otter had called here the day before and gone north. Leaving Fort Rupert on 30th, anchored off the mouth of the Nimpkish river same afternoon; the next morning ascended the river to Karmutzen lake; plenty of salmon and trout were caught in the river. Mr. Mohun's party were surveying the neighborhood of Salmon river. Left 2nd October, and having failed to get through Seymour Narrows, the current being so strong, anchored in Plumper Bay; steaming through the Narrows the following morning, anchored in Nanoose Harbor—Departure Bay next morning (4th) for coal; leaving same day remained that night at Horse Shoe Bay, and left there for Esquimalt yesterday afternoon, where arrived last evening.

Cariboo—A Popular Government.

Public meetings have been held at Barkerville and Lightning creek, Cariboo, in order to give the Hon. Attorney General an opportunity to address his constituents.

The speaker was received at both meetings with the greatest good feeling. Mr. Thompson, M.P., and Mr. Barnston addressed the Barkerville assemblage; the course pursued by the latter in the legislature met with the approbation of his listeners, as did also the policy of Mr. Hunter. At the close of the meeting, the following resolutions were passed by acclamation:—

"That in the opinion of this meeting, the Hon. Geo. A. Walkem possesses the confidence of the electors of Cariboo, and that he has in his legislative labors evinced the strongest desire to protect and forward the interests of this section of the Province, which he so creditably represents.

"And this meeting further begs to congratulate Mr. Walkem upon his appointment to the office of Attorney General of the present popular Administration."

Lower Fraser.

Mr. Grose has been elected a school trustee for Langley, in the place of Mr. Mackie. Mr. Burr will be appointed teacher in the place Mr. Gibbs, resigned.

The new church at Chilliwhack has received the finishing touches.

New Westminster Agricultural Exhibition will be held to-morrow. The Lieutenant-Governor is expected to be present, leaving to-day in H.M.S. Myrmidon.

The N. W. *Guardian* of Saturday says the STANDARD had a leader, (and the *Colonist* of course follows suit) the object of which they assert is "to hide as far as possible the very questionable act of disposing of the public domain." We don't remember anything about that leader, nor do we see that there was anything to hide.

CITY WATER WORKS.—The foundation stone of the masonry dam at Beaver Lake will be laid to-morrow, the 7th inst., by His Worship the Mayor. The members of the Council will be present, and invitations have been extended to His Honor the Lieutenant-Governor, the Ministry and the city members. The ceremony will take place punctually at 2 p. m. Any of the citizens desirous of witnessing the proceedings can drive from Stevens' to the lake, which is not more than ten minutes walk to the dam.

COMOX AND NANAIMO.—The Emma arrived here yesterday from Comox, whither she had been to bring down a party of gentlemen, including Mr. Phelan, a large capitalist, who had been inspecting the Baynes Sound coal mine, with a view to purchase, we understand. Messrs. Bowman, Gaston, Fellows and another, also came in the Emma. Mr. Horne, of the H. B. Co., Comox, had in his possession a very rich sample of iron ore recently discovered. At Nanaimo, the barque Constitution, from San Francisco, had just arrived to load coal.

FIRE DEPARTMENT ELECTION.—To-day the Fire Department of this city holds its annual election of Chief and Assistant Engineers. For Chief the Deluge Company have nominated for re-election Mr. Wm. Lohse, whilst the Tiger Company present Mr. Saml. Kelly as their nominee, a movement which is endorsed by the Union Hook & Ladder Co. Mr. Joseph Wriglesworth has the nomination of each of the three companies for Assistant, and will therefore go into office without opposition, but between the two candidates for Chief a very close run is expected.

PASSENGERS FROM NEW WESTMINSTER.—The Maude brought down on Saturday from New Westminster the following passengers:—Mrs. Dickson, Mrs. Williams, Mrs. Buie, Mrs. Nelson, and Messrs. J. S. Thompson, M.P., S. Tingley, F. Eickoff, H. Debin, H. Cooper, Grafton, C. Perkins, J. Donnelly, W. Houghton, T. Simpson, H. Miller, W. Williams, T. Birmingham.

THE FIRE BELL will ring to-day shortly after the close of the Fire Department election; the public will therefore not be alarmed for fire.

Rifle Match—Naval Officers versus Volunteers.

A match between ten officers of H.M.S. navy and ten men of the Victoria Volunteers, was fired on Saturday at the Clover Point butts,—closing at five o'clock,—and witnessed by a few scores of persons from the overhanging bank. The shooting was poor on both sides, but that of the volunteers was markedly so; in fact we do not remember worse shooting from their hands. It is accounted for, however, from non-practice on the side of the latter. For the return match, which is, we believe, shortly to come off, the Volunteers must waste some rounds, that they may become familiar with their former proficiency. We might say that the officers had an advantage in the weapons used; they fired with the Snyder, whilst the Volunteers used the old long Enfield. Five rounds at each range gave the following scores:

FOR OTTAWA.—Mr. J. S. Thompson, member for Cariboo, arrived in town on Saturday *en route* to Ottawa by next steamer. Mr. Dewdney is at Hope and will be down by the next trip of the Maude, also for the seat of Government. Senator Cornwall will be here in time to leave by next Prince Alfred.

THE EXECUTION OF THE MODOCS.—The lines eastward are monopolized by the New York *Herald* and *Tribune* for the transmission of the details attendant on the execution of the Modoc savages. We need scarcely look for telegrams other than those given to-day, for several days.

GRATIFYING.—We are pleased to hear that the Provincial Agricultural and Horticultural Society, after paying all liabilities incurred by the late exhibition, have netted the handsome sum of $400.

ARRIVALS at the Driard House, Oct. 5th: Mr. F. Pickoff, James Phelan, Esq., Amos Bowman, Esq., J. B. VanBorkerck, Esq., Rear-Admiral A.A. Cochrane, Lieut. T. H. Grenfeld.

EDUCATIONAL.—Three new school districts are gazetted, viz, Colwood, Trenant, and Burgoyne Bay. Boundaries may be learned on reference to advertising columns to-morrow.

DYKING AND IRRIGATION.—Messrs. H. Helgeson and W. Fisher, Metchosin, are appointed Commissioners under the Drainage and Dyking Act, 1873, for Esquimalt Road District.

FROM BELOW.—The Jean Sands arrived from San Francisco on Saturday, to load lumber at the Inlet.

AN ASSIZE Court will be held here on the 7th of next month.

A PLOUGHING MATCH will be held near Eckstein's hotel, South Saanich, on the 11th instant.

The Gen'l R. E. Lee Monument.

The colossal monument to the memory of Gen'l Lee which is now rapidly being constructed under the direction and skill of Prof. Volentine, will, when completed, be the greatest triumph of art and mechanical skill ever produced in this country. The structure will be surmounted by a reclining figure of Gen'l Lee enveloped in his military cloak. The form will be finely carved in marble, and the expression of countenance rendered with lifelike correctness. In order to complete this grand monument at the earliest possible day, the Executive Committe of the Lee Memorial Association, of Lexington, Va., which is composed of such distinguished men as Gen'l Pendleton, Gen'l Terry, Hon. Wm. McLaughpin, Col. Preston Johnson, Col. Jas, K. Edmondson, Chas. Davidson, and others, have authorized the publication and sale of a perfect *life-size* steel engraved portrait of Gen'l Lee. The proceeds of its sale to be applied in furtherance of the object of this Association, namely: to the erection of a monument to the memory of Gen'l R. E. Lee, at the Washington and Lee University, Lexington, Va. The portrait will be sold only by subscription, through regular authorized agents, and every subscriber will receive a certificate signed by the Secretary and Chairman of the Lee Memorial Association. We commend this portrait to the public, and hope some good energetic man will secure the agency in this section in order to help on the good work. Messrs. W. W. Boswick & Co., Nos 177 & 179 West Fourth street, Cincinnati, Ohio, have been constituted and appointed General Managers of Agencies, and any communications addressed to them, for circulars, terms and certificates, will receive prompt attention. ***

WONDERFUL PRICES FOR CATTLE.—In the New York *Herald* of September 13th we find the report of a sale of fifteen superb thoroughbred cows at the prize stock farm of the Hon. Samuel Campbell, near Utica, on the 10th. The fifteen cows sold for the enormous aggregate of $200,000! One cow, the Eighth Duchess of Geneva, calved July 26, 1866, with a splendid pedigree, of course, was sold to Mr. P. Davies, a wealthy thoroughbred stock breeder of Gloucestershire, England, for the astounding sum of $40,000! He has come from England purposely to attend the sale. The calf of the same cow, only five months old, was sold to Alexander, the great stock breeder of Kentucky, for $27,000! Another cow, a trifle over six years old, was sold for $35,000; the third, two years old, for $15,600; fourth, six years old, for $15,000; the fifth, one year old, for $10,000; another yearling, for $10,000; a calf six months old, for $10,000; another, eleven months old, for $6,000; a cow, four years old, for $7,000; another, three years old, for $30,000; a yearling, for $25,000; a two year old cow, for $9,000; a cow eleven years old, for $6,000; and another, two years old, for $5,000. It was the most noted cattle sale ever held.

THE MONETARY CRISIS.

ORDER CONCERNING THE DEATH OF ADMIRAL WINSLOW, U.S.N.

THE SITUATION IN FRANCE.

Sir Edwin Landseer is Deceased.

OREGON.

JACKSONVILLE, Or., 3.—The Modoc executions took place to-day at Fort Klamath; two of them, Barncho and Slahix, were reprieved last night, to be imprisoned for life. Four of them, Jack, Sconchin, Boston Charley, and Black Jim, were hanged.

JACKSONVILLE, Or., Oct. 2.—From Mr. Obenchain, who left Fort Klamath yesterday, we learn some particulars of the closing preparations for the execution of the six Modocs now under sentence of death, namely, Capt. Jack, Sconchin, Boston Charley, Black Jim, Barncho and Slahix. Mr. Obenchain says the scaffold is erected just outside of the fort, and built strong enough, to all appearance, to hang twice as many as there are victims.

The prisoners are spoken of as in good health, and seemed somewhat prepared for the fate which awaits them. Riddle, of Yreka, is there, and will act as interpreter on the occasion, as it will be necessary to translate the order of the execution to them. Mr. Obenchain says the execution is to take place at ten o'clock to-morrow, but the ceremony of translation and other preparations, may detain it an hour or so.

EASTERN STATES.

NEW YORK, Oct. 2,—There was a better feeling in financial circles to-day. Private advices report an improvement in some of the leading cities of the Union. Some bankers received telegrams from Cincinnati and other western cities, to stop sending currency.

George Bird, Grinell & Co., who failed to-day, were successors of George B. Grinnell & Co. This house has been in existence only one month.

BROOKLYN, N.Y., Oct. 2.—The billiard match between Garnier and Daly, for the championship of America, a diamond cue, and $1,000, took place to-night at Tammany Hall, in a game of four-ball carom upon a Cullendar table. The betting had been largely in favor of Daly, but Garnier won in 47 innings, with a score of 1,500, to Daly's 1,224.

WASHINGTON, Oct. 2.—The financial situation is most encouraging. A petition was filed in the Supreme Court of the district of Columbia, in the name of Clifford Merrick, against Jay Cooke & Co., and other members of the firm, to force them into involuntary bankruptcy.

The following general order announcing the death of Rear-Admiral Winslow, has been issued: "Navy Department, Washington, Oct. 1.—The Department, with great regret, has to announce to the naval service the death of Rear-Admiral John A. Winslow. The name of this distinguished officer will live in the history of his country as that of victor in the memorable sea fight during the late war of the rebellion, which ended in the destruction of the Alabama by the Kearsage."

On the day after the receipt of this order, the flags of the navy yards and stations, and of all ships of war in commission, will be kept at half-mast, from sunrise to sunset, and thirteen minute guns be fired at noon, afloat and ashore. The officers of the navy and marine corps will wear crape on the left arm for the usual period of thirty days. Signed, Wm. Reynolds, acting Secretary of the Navy.

WASHINGTON, Sept. 3.—Sir Samuel Baker, the African traveller, and his wife, will visit this country next summer.

EUROPE.

PARIS, Sept. 2.—Thiers has been notified by telegraph to-day of impending political movements in France, and that his presence is much desired here.

Later.—Thiers arrived this evening.

It is stated that Count de Chambord will arrive at Geneva from Frohsdorf on the 4th inst.

LONDON, Sept. 2.—Advices from Africa announce the capture of a white man by the natives, while proceeding westward on the Congo river. From the description of the man, Mr. Chas. Livingstone believes him to be his son.

Late advices from Paraguay show that the privations of the English colonists continue, and that there is great dissatisfaction.

Sir Edwin Landseer, the celebrated painter, died last night, aged 73.

Yesterday's steamer from Liverpool took up $44,000 in specie.

LONDON, Sept. 3.—Seven hundred and seventy-five thousand dollars in bullion were shipped from Liverpool for New York yesterday; $430,000 for Montreal.

A chimney 220 feet high in the village of Northfleet fell to-day, killing five persons and maiming a dozen others.

PARIS, Sept. 3.—The city has been full of political rumors to-day with regard to the political situation. A report which gained more currency and caused a great deal of excitement was one stating that the Permanent Committee of the Assembly would order that body to meet on the 13th inst.; that the government officials now absent from Versailles had been ordered to proceed thence immediately.

CALIFORNIA.

SAN FRANCISCO, Sept. 24.—It is understood that Sloluck and Barncho are the Modocs pardoned by President Grant. The pardon was granted for the reason that these men acted merely as instruments of Capt. Jack in the murder of the Peace Commissioners.

Oregon Items.

The Corvallis *Gazette* of last Saturday says: About 10 o'clock yesterday morning, Mr. M. Lillard brought the sad intelligence to town that Mr. Zeb. Henkle, living near Philomath, father of Geo. W. Henkle, merchant of this place, had been instantly killed by the accidental discharge of his shot gun.

A Mr. Glenn, a teamster, met with a severe accident Thursday. He was hauling wood on the river bottom about two miles from Salem, and while walking beside his waggon tripped over a small log, falling under the waggon wheels, by which one of his legs was broken.

A very sad accident occurred on Friday of last week to a little girl of Mr. Fred. Geer, of Butteville, one of a twin pair aged about eight years. She was playing about a fire in the door yard, when her clothes took fire and she was shockingly burned before assistance could be given her.

The *Astorian* says: Capt. Frechen met with a very serious accident on the Wetterhorn coming out of the Willamette a few days ago. He ran against a break on the capstan with such force as to almost put out his right eye. The flesh of his face was badly cut, but fortunately the eye was not injured.

"Please deliver me from my friends and most intimate enemies," is the prayer an Illinois artist makes in print.

The Oregon Salmon Fisheries.

THE LOCALITIES OF THE FISHERIES—THE AMOUNT OF BUSINESS DONE—THE MEN ENGAGED IN THE BUSINESS.

[From the Portland Bulletin.]

Let facts about this important home industry be read by the public through your columns. While the agriculture of the State is regarded with great interest year after year, comparatively little is known to the general public of the annual harvest of fish which fill the Columbia and, partially, the Willamette rivers.

As the Captain intimates, salmon are the important and abundant fish in these streams, and consequently form the bulk of the fishing interests. It has been stated to us that at one, and perhaps the largest of the fisheries on the Columbia river, 32,000 cases, viz: 21,000 1-lb cans and 11,000 2-lb cans of fish have been put up the present season. About 200 barrels and 100 kits of salted salmon have been put up at the same place.

The next place down the river has done almost the same amount of business, and the fishery standing next in order of capacity to those mentioned, has put up and sold 22,000 cases, viz: 15,000 of 1-lb and 7,000 of 2-lb cans, and 200 barrels of 200 pounds each, of salt salmon. Also, here have been put up 100 kits of fifty-pounds each, of salmon bellies.

It is estimated that another fishery, about as large, has put up 20,000 cases, of forty-eight pounds per case. Some of the fisheries pack the salmon in barrels more than in cans, and occasionally one does no canning business at all. Such a one has put up 16,000 barrels salted, 600 barrels of which go to Germany for smoking purposes. To save cooperage, tierces of 300 pounds each are sometimes used instead of barrels.

At another barrel-packing fishery, 300 barrels, of 250 pounds, have been packed, and at the fishery bring $6 to $7 per barrel. Barrels of fish from the one previously mentioned are worth $9 on the wharf here.

At a canning fishery, not as large as those mentioned, 2,000 cases have been put up. Two other fisheries, of similar capacity, have each put up 6,000 cases, of forty-eight pounds to the case.

In our endeavor to give correct estimates of the salmon catch this year, we give only those figures which are known to refer to particular fisheries. There are still other fishing points on the river—half as many more, probably—but having no certain information concerning them, we make no estimate about their year's work.

Although our rivers were full of fish, it would profit us little if there were no market for them; or if the fish were of an inferior kind, and did not recommend themselves. The following figures will give some idea of the amount of cash in hand the salmon are worth to the State this year: Sales of the fishery mentioned amount to $224,000. Much has been sold in England, as is the case with all the fisheries. It has been stated that the proprietor of the fishery mentioned next in order, would put $30,000 in his pocket as net profit from his season's work. We give this for what it is worth. The third one on the list has sold $156,200 worth. Say 18,000 cases at $7 per case of forty-eight pounds, to Cross & Blackwell, London; and 4,000 cases to Allen & Lewis, Portland; 200 barrels, worth $18, and 100 pounds at $4. At this fishery a can is worth thirteen to fourteen cents.

The other fishermen have sold as much in proportion. An indication that business has been good is that they are all *quietly* "enlarging their boundaries" and preparing for three times as much business next season. Others are taking the hint, and new fisheries are being built.

Now about the cost of carrying on the business, and a little about the method which different ones use.

One box of tin costs about $42, and by the manufacture of the cans at the fishery each one costs five cents. A barrel for salmon costs $1 75; there are 14 white-oak hoops on each one. A fish barrel of spruce with oak hoops costs also $1 85; half-barrels cost $1 25. Liverpool salt, the only kind used, costs $20 per ton at the fisheries.

The help employed about all these fisheries is either white men or Chinamen. The first fishery named employs all white men, and saves by the operation. It seems to be a general comment that Chinamen are wasteful and must be watched. White men are paid here about $40 per month and board.

The third fishery has about 125, about 30 of them white men; 95 Chinese receive on an average $1 per day; 20 Chinese tinners receive $50 per month; Chinamen cleaners at $25, and fillers at $30. Of the 30 white men, 10 tinners received $52 50 per month, and the other 20, $1 per day; though of these, two boilers had $3 50 and $4 50 per day. Sixteen men had eight boats and a steam tug; they brought in 700 fish per day for 75 days.

Another fishery has eighty men employed, seventy of whom are Chinese. Still another has twenty-five Chinese and ten white men. The other fisheries named and those not mentioned employ Chinese labor to a greater or less extent. Usually Chinamen board themselves, while white men are boarded.

We have heard the remark that salmon here would be "run into the ground," as in the East other fish have been caught out of the streams. We think there is no cause for apprehension, as the Columbia can hold many fish and the ocean, where the fish come from, is still larger than the Columbia River. The salmon do not diminish in the river. Those sand islands near Knappa are said to have immense quantities of spawn on them each year.

New places for fishing are found, and none are occupied now. We can never know the number of fish, but we need have no fear of their scarcity.

The market for next year is, in a measure, assured. Orders came too plenty this year for fulfillment, and, in addition to those surplus ones, still others from England engage the entire catch of some fisheries.

Those acquainted with this business know it to be a great one, and by means of these facts all who read them may have an enlarged idea of the immense "undeveloped resources" of the State. The latest estimated value of the salmon canned and salted this year is $900,000, and this estimate is made by one engaged in the business. Five new large canneries will be put up for the next year, beside the increase of the older ones. C.M.

HOLLOWAY'S OINTMENT AND PILLS.—Never at fault.—In all irritations of the skin, sores, ulcers, burns, and scrofulous enlargements of the glands Holloway's Ointment presents a ready and easy means of cure, which never disappoint the most favorable expectations. It manifests a peculiar power in restraining inflammation, removing stagnation, cooling the heated blood, and checking all acrimonious or unhealthy discharges. Whilst the Ointment thus acts locally, the Pills are no less remarkable for their power in improving the general condition and habit of body, both processes render the cures complete and permanent. Under the general influence of these potent remedies, the puny infant becomes the robust child; the pale and emaciated regain color and retundity, and the dyspeptic eats freely without fear.

Maravilla Cocoa.—The *Globe* says: "Taylor Brothers' Maravilla Cocoa has achieved a thorough success, and supersedes every other Cocoa in the Market. Entire solubility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For Invalids and Dyspeptics, we could not recommend a more agreeable or valuable beverage." For further favorable opinion vide *Standard, Morning Post, British Medical Journal, &c., &c.*

England's New Iron Monster.

THE SHIP OF SHIPS—HER IMMENSE POWER

The new English iron-clad, the "Inflexible," is to be a great addition to the English navy, with heavier guns than even the "Devastation" carries, and of about the same size as the "Fury". The London *News* has this in relation to her:

The "Inflexible" will be a sea going turret vessel of high freeboard, with two heavily-armed turrets, each carrying a couple of the most powerful guns that can be designed and manufactured She will be propelled by two powerful screws, one under each counter, each screw being driven by two sets of engines, and will in addition be provided with light fore and aft rigging, so as to be able to set trysail if required in heavy weather, or in the improbable event of her four sets of engines being disabled. In order to obtain equally good attacking power right ahead and astern as on the beam—a desideratum of the utmost importance, since most authorities are agreed that future naval actions at events between single ships, will to a large extent be fought end-on—the turrets are escheloned, that is to say, instead of having their centres in the middle line of the ship, one is to port and the other to starboard of it. The turrets themselves will most probably be oval instead of circular, though they will be mounted on circular bases. The object of this arrangement is of course the reduction of weight, for, as the guns carried by the "Inflexible" will be considerably longer than those of the "Devastation," a greater diameter of turret will necessarily be required in the direction of their length than perpendicular to it. The new ship will be of the same length as the "Fury," 340 feet, but her beam will be greater, and she will draw three feet less water, or 22 feet 9 inches forward and 23 feet 6 inches aft. As we have already stated, she is to be a high-sided ship, having a freeboard forward of 20 feet, though the protected side, in wake of the central citadel, will be considerably less than this. Her coal endurance is also to be the same as the 'Fury's,' and at her full limit of speed, fourteen knots per hour, she will be able to steam 3,000 knots; while at the more economical speed of ten knots, she will probably be able to accomplish double that distance The vital parts of the vessel are to be protected by very thick armor, not less than 29-inches. These vital parts are considered to be the bases of the turrets and their machinery, and the various openings into the ship, including the funnels, ventilation shafts, etc, all of which are arranged so as to come in the centre of the vessel, and are inclosed in a species of citadel, on the top of which are the turrets, commanding an all-round fire. The ship's engines, boilers and other machinery, it may be mentioned, are kept well below the water line where not directly protected by armor.

The Hornellville (N. S.) *Herald* tells the following story about a mean man: Old Skinflint, with a speckled hen, was to O'Brien's circus lately, and hitched his team to a fence in the rear of the office. Pulling an old 10-pound salt sack from under the seat, he proceed to feed the horses. What in the world the hen was for we could not imagine until just before hitching up to return he tied one end of the string attached to the hen's leg to the hind wheel of the wagon, and the mystery was solved; he had brought along the hen to pick up the last oat left by the horses, that nothing might be lost.

In the trial of a woman of New York, for cruelly exposing an infant to death, the fact was disclosed by the testimony that the mother was a dress-maker named Mary Coron who is now travelling with Barnum's show as the wonderful "Circassian Girl." She farmed out the infant to the prisoner after its birth, that she might accept of this profitable engagement.

An uncouth child of nature writes feelingly anent a popular topic: "I could stan' bein' called a liar and a thief," says he, "or even be told that the old man kep' a hoopskirt factory; but when one of them loafin' goslin come aroun' me a-sayin' as I had suthin to do with that ere *Betsey nor I is Out*, I jes riz on my hind legs and combed him down.

PROVINCIAL SECRETARY'S OFFICE,
25th September, 1873.

THE Lieutenant-Governor in Council directs the publication of the following Protocol.

By Command.

JOHN ASH,
Provincial Secretary.

Protocol signed at Washington on the 10th of March, 1873, *defining the Boundary Line through the Canal de Haro, in accordance with the Award of the Emperor of Germany of October* 21, 1872.

WHEREAS it was provided by the 1st Article of the Treaty between Great Britain and the United States of America, signed at Washington on the 15th of June, 1846, as follows:—

"ARTICLE I.

"From the point on the 49th parallel of north latitude where the boundary laid down in existing Treaties and Conventions between Great Britain and the United States terminates, the line of boundary, between the territories of Her Britannic Majesty and those of the United States, shall be continued westward along the said 49th parallel of north latitude, to the middle of the channel which separates the Continent from Vancouver's Island; and thence southerly through the middle of the said channel, and of Fuca's Straits, to the Pacific Ocean; provided however, that the navigation of the whole of the said channel and straits, south of the 49th parallel of north latitude, remain free and open to both Parties."

And whereas it was provided by the XXXIVth Article of the Treaty between Great Britain and the United States of America, signed at Washington on the 8th of May, 1871, as follows:—

ARTICLE XXXIV.

"Whereas it was stipulated by Article I of the Treaty concluded at Washington on the 15th of June, 1846, between Her Britannic Majesty and the United States, that the line of boundary between the territories of Her Britannic Majesty and those of the United States, from the point on the 49th parallel of north latitude, up to which it had already been ascertained, should be continued westward along the said parallel of north latitude to the middle of the channel which separates the Continent from Vancouver's Island, and thence southerly through the middle of the said channel and of Fuca Straits to the Pacific Ocean, and whereas the Commissioners appointed by the two High Contracting Parties to determine that portion of the boundary which runs southerly through the middle of the channel aforesaid were unable to agree upon the same; and whereas the Government of Her Britannic Majesty claims that such boundary line should, under the terms of the Treaty above recited, be run through the Rosario Straits, and the Government of the United States claims that it should be run through the Canal de Haro, it is agreed that the respective claims of the Government of Her Britannic Majesty, and of the Government of the United States shall be submitted to the arbitration and award of His Majesty the Emperor of Germany, who, having regard to the abovementioned Article of the said Treaty, shall decide thereupon, finally and without appeal, which of those claims is most in accordance with the true interpretation of the Treaty of June 15, 1846."

And whereas His Majesty the Emperor of Germany has by his award dated 21st of October, 1872, decided that "Mit der richtigen Auslegung der zwischen den Regierungen Ihrer Britischen Majestat und der vereinigten Staaten von Amerika geschlossenen Vertrages de dato Washington den 15ter Juni, 1846 steht der Anspruch der Regierung der vereinigten Staaten am meisten im Einklange, dass die Grenzlinie zwischen den Gebieten Ihrer Britischen Majestat und den vereinigten Staaten durch den Haro Kanal gezogen werde."

The Undersigned, the Right Honorable Sir Edward Thornton, one of Her Majesty's Most Honorable Privy Council, Knight Commander of the Most Honorable Order of the Bath, Her Britannic Majesty's Envoy Extraordinary and Minister Plenipotentiary to the United States of America, and Rear-Admiral James Charles Prevost, Commissioner of Her Britannic Majesty in respect of the boundary aforesaid, and Hamilton Fish, Secretary of State of the United States, duly authorized by their respective Governments to trace out and mark on charts prepared for that purpose the line of boundary in conformity with the award of his Majesty the Emperor of Germany, and to complete the determination of so much of the boundary line between the possessions of Great Britain and the territory of the United States, as was left uncompleted by the Commissioners heretofore appointed to carry into effect the 1st Article of the Treaty of 16th of June 1846, having met together at Washington and have traced out and marked the said boundary line on four charts, severally entitled "North America, West Coast, Strait of Juan de Fuca, and the channels between the Continent and Vancouver Island, showing the Boundary Line, between British and American Possessions, from the Admiralty Surveys by Captains H. Kellet, R. N., 1847, and G. H. Richards, R. N., 1858-1862" and having on examination agreed that the lines so traced and marked on the respective charts are identical, they have severally signed the said charts on behalf of their respective Governments, two copies thereof to be retained by the Government of Her Britannic Majesty and two copies thereof to be retained by the Government of the United States, to serve with the "Definition of the Boundary Line" attached hereto, showing the general bearings of the line of boundary as laid down on the charts, as a perpetual record of agreement between the two Governments in the matter of the line of boundary between their respective dominions, under the 1st Article of the Treaty concluded at Washington on the 15th of June, 1856.

In witness thereof, the undersigned have signed this Protocol, and have hereunto affixed their seals.

Done in duplicate, at Washington, this 10th day of March, in the year 1873.

Definition of the Boundary Line.

The chart upon which the boundary line between the British and the United States' Possessions is laid down is entitled "North America, West Coast, Strait of Juan de Fuca, and the Channels between the Continent and Vancouver Island, showing the Boundary Line between British and American Possessions, from the Admiralty Surveys by Captains H. Kellett, R.N., 1847, and G. H. Richards, R. N., 1858-1862."

The boundary line thus laid down on the chart is a black line, shaded red on the side of the British Possessions, and blue on the side of the Possessions of the United States.

The boundary line thus defined commences at the point on the 49th parallel of north latitude on the west side of Point Robarts, which is marked by a stone monument, and the line is continued along the same parallel to the middle of the channel which separates the Continent from Vancouver's Island, that is to say, to a point in longitude 123° 19' 16" west, as shown on the said chart.

It then proceeds in a direction about 50° east (true) for about 15 geographical miles, when it curves to the southward passing equidistant between the west point of Patos Island and the east point of Saturna Island until the point midway on a line drawn between Turn Point, on Stewart Island and Fairfax Point on Moresby Island bears south 86° west (true), distant 10 miles, then on a course south 68° west (true) 10 miles to the said point midway between Turn Point on Stewart Island and Fairfax Point on Moresby Island, thence on a course about south 12° 30' east (true) for about 8¾ miles to a point due east 1 mile from the northernmost kelp reef, which reef on the said chart is laid down as in latitute 48° 33' north and in longitude 123° 15' west; then its direction continues about south 20° 15' east (true) 6¼ miles to a point midway between Sea Bird Point on Discovery Island and Pile Point on San Juan Island, thence in a straight line south 45° east (true) until it touches the north end of the middle bank in between 13 and 18 fathoms of water; from this point the line takes a general south 18° 40' west direction (true) for about 10 miles, when it reaches the centre of the fairway of the Strait of Juan de Fuca, which by the chart is in the latitude of 48° 17' north and longitude 123° 14' 40" west.

Thence the line runs in a direction south 73° west (true) for 12 miles to a point on a straight line drawn from the light-house on Race Island to Angeles Point midway between the same.

Thence the line runs through the centre of the Strait of Juan de Fuca, first, in a direction north 80° 30 west about 5¾ miles to a point equidistant on a straight line between Beechey Head on Vancouver Island and Tongas Point on the shore of Washington Territory; second, in a direction north 76° west about 13½ miles to a point equidistant in a straight line between Sherringham Point on Vancouver Island and Pillar Point on the shore of Washington Territory; in a direction north 68° west about 30¾ miles to the Pacific Ocean at a point equidistant between Bonilla Point on Vancouver Island and Tatoosh Island lighthouse on the American shore, the line between the points being nearly due north and south (true).

The courses and distances as given in the foregoing description are not assumed to be perfectly accurate, but are as nearly so as is supposed to be necessary to a practical definition of the line laid down on the chart and intended to be the boundary line.

PROVINCIAL SECRETARY'S OFFICE,
12th *September*, 1873.

THE Lieutenant-Governor directs the insertion of the following Despatches and enclosure from Her Majesty's Principal Secretary of State for the Colonies to His Excellency the Governor-General of Canada, which have been transmitted to His Honor for publication in this Province.

CIRCULAR. DOWNING STREET,
8th July, 1873.

SIR,—I have the honor to transmit to you for publication in the usual and most authentic manner in the Colony under your Government, a copy of an Order of Her Majesty in Council of the 26th June, requiring parties appellant in causes pending before Her Majesty, to take effectual steps to set down their cases for hearing within a limited time from the Registration of the appeal in England. I have, &c.,

(Signed) KIMBERLEY.

The Officer administering the Government of Canada.

AT the Court of *Windsor*, the 26th day of *June*, 1873.
PRESENT.
The QUEEN'S Most Excellent Majesty in Council.

WHEREAS in many Appeals now pending before Her Majesty in or their agents to set down their cases for hearing, although more than twelve months have elapsed since the arrival and registration of the transcript of appeal in this country, and it is expedient to make further provision in that behalf, Her Majesty, by and with the advice of Her Privy Council, and upon a recommendation of the Lords of the Judical Committee of the Privy Council, is pleased to order, and it is hereby ordered, that the solicitors or agents for the party appellant in all such Appeals now pending before Her Majesty in Council are hereby required to take effectual steps to set down their cases for hearing within six months from the date of this Order, and in all other Appeals to Her Majesty in Council within a period not exceeding twelve months from the date of the arrival and registration of the transcript in this country.

And Her Majesty is further pleased to order, and it is hereby ordered, that it shall be the duty of the Registrar of the PrivyCouncil to report to the Lords of the Judicial Committee the names of the parties and dates of the Decrees in Appeals in which no effectual steps have been taken within the aforesaid periods of time to set down the case for hearing; and the Lords of the Judicial Committee of the Privy Council shall be at liberty to call upon the Appellant or his agent in such cases to show cause why the said Appeal or Appeals should not be dismissed for non-prosecution, and (if they shall so think fit) to recommend to Her Majesty the dismissal of any such Appeal, or to give such directions therein as the justice of the case may require.

And Her Majesty is further pleased to order that nothing in the present Order shall prevent the dismissal of an Appeal under the 5th of the Rules approved by Her Majesty on the 13th of June, 1853, in cases to which that Rule is applicable.

Whereof the Governors of Her Majesty's Plantations and Dominions abroad, and the Judges or Officers of Her Majesty's Courts of Justice from which an Appeal lies to Her Majesty in Council, and all other persons whom it may concern, are to take notice and govern themselves accordingly.

PUBLIC NOTICE.

RULES RELATIVE TO PRIVATE BILLS.

ALL applications for Private Bills, properly the subject of legislation by the Legislative Assembly of British Columbia, within the purview of the "British North America Act, 1867," whether for the erection of a Bridge, the making of a railroad, Turnpike Road, or Telegraph Line; the construction or improvement of a Harbour, Canal, Lock, Dam, or Slide, or other like work, the granting of a right of Ferry; the incorporation of any particular trade or calling, or of any Joint Stock Co.; or otherwise for granting to any individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would effect the right or property of other parties, or relate to any particular class of the community; or for making any amendment of a like nature to any former Act,—shall require a Notice, clearly and distinctly specifying the nature object of the application, to be published as follows.—

A notice inserted in the British Columbia Gazette and in one newspaper published in the District affected, or if there be no newspaper published therein then in a newpaper in the next nearest District in which a newspaper is published.

Such notice shall be continued in each case for a period of at least six weeks, during the intervals of time between the close of the next preceding Session and the consideration of the Petition.

Before any Petition, praying for leave to bring in a Private Bill for the erection of a Toll Bridge, is presented to the House, the person or persons intending to petition for such Bill shall, upon giving the notice prescribed by the preceding rule, also at the same time and in the same manner, give notice of the rates which they intent to ask the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and mentioning also whether they intend to erect a drawbridge or not, and the dimensions of the same.

J. ROLAND HETT,
Clerk of the Legislative Assembly.
2nd August, 1873.

PROVINCIAL SECRETARY'S OFFICE.
August 21st 1873.

AS it is desirable, in view of framing a scheme for Assisted Immigration to the Province of British Columbia, that the Government should be possessed of the fullest data on which to base calculation as to the number of persons resident in the Province who might be desirous of assisting themselves, in the interest of friends, relatives, &c., of any arrangements that may be hereafter made by the Government of the Province in this behalf, all persons settled in the Province who may desire to bring out relatives or friends, and all employers who may wish to bring out laborers or servants, are requested to send the fullest particulars to the Provincial Secretary.

Those desirous of bringing out friends or relatives to state numbers, age, and sex of possible immigrants, and the amount that they are prepared to advance towards the desired object.

With regard to those desirous of bringing out labourers or servants, a guarantee would be required for the repayment to the Government, at stated periods, of the sums advanced for passage, and applicants must state that they are prepared to give the same.

It will be fully understood that by the present notice the Government do not bind themselves to carry out any individual application or any general plan of Assisted Immigration at present, but merely to obtain requisite preliminary information.
